Education

California State University - Fullerton

B.S. Computer Science, GPA: 3.6, Dec 2025

Video Game Development Club

Technical Skills

- **Languages:** C#, Python, C++, JavaScript, HTML/CSS
- **Frameworks/Tools:** Unity, Qt/QML (PySide6), .NET, Git, GitHub, GitHub Projects
- **Platforms:** Windows, Linux, Android

Projects

Artillery (Senior Capstone) – Unity, C#

2D turn-based artillery game focused on offline local play.

- Designed a modular, state-driven architecture to manage game flow (menus, gameplay, turns) and unit behavior.
- Implemented local matches with round-robin turns, team-based units, movement, and projectile weapons.
- Prototyped destructible terrain algorithms in .NET, then integrated a Unity terrain package into the final build.

Card Collection (CPSC 362 Software Engineering project) – Python (PySide6), Qt/QML, JavaScript

Desktop app for exploring and collecting Pokémon TCG cards via API.

- Implemented Search, Discover, and Collection modes with filters, random draws, and a compare view.
- Built a modular Qt/QML UI with reusable components backed by a Python backend using signals and slots.
- Implemented asynchronous API calls to keep large searches responsive; serialized collections as JSON.

Employment

Portrait Photographer - Cantrell Photography

Orange County | Feb 2025 - Aug 2025

- Captured high-volume student/staff portraits on tight schedules while maintaining consistent quality.
- Set up, calibrated, and maintained equipment across multiple school sites.
- Coordinated with staff and team members to keep workflow efficient and on time.

Freelance Graphic Artist

Remote | Jan 2024 - Jan 2025

- Produced and revised client graphics in Photoshop/Illustrator based on requirements and feedback.
- Adapted existing assets for new formats and use cases while maintaining brand consistency.
- Optimized and exported web-ready assets with attention to resolution and quality.

STEM Robotics Educator - Brain Builders STEM Ed

Tustin/Santa Ana, CA | Aug 2022 - Jan 2023

- Taught engineering and robotics concepts to grades 3–6 in after-school programs.
- Developed and delivered hands-on lessons that emphasized creativity, teamwork, and problem-solving.
- Managed classrooms (often 20–30 students) and communicated progress with staff/parents as needed.

Content Integration Assistant - Thales

Irvine, CA | Oct 2021 - Oct 2022

- Performed QA/QC validation of audio/video content against contract specifications and metadata requirements.
- Logged defects and maintained issue reports with clear reproduction details and status tracking.
- Partnered with technical teams to verify fixes and ensure deliverables met quality standards.
